Aleksandra Markovic
Student of Power Software Engineering / .NET Developer

Solution-oriented and well-organized. I am independent, but I also love working in team. Love learning new skills and having good times and adventures with friends and colleagues.

WORK EXPERIENCE

Student internship as QA Engineer
LionEight
09/2021 - 10/2021   *Kragujevac, Serbia*

Achievements/Tasks
- I was learning the fundamentals of QA, XPath locators, Java, how to write test etc. We were using Java, Selenium, IntelliJ and Jira Software.

Student internship as Java Developer
Levi9 Technology Services
11/2021 - 12/2021   *Novi Sad, Serbia*

Achievements/Tasks
- I was working in a team of four. We created backend API application for flight reservations in Java.

Software Developer
MarbleIT
01/2022 - Present   *Novi Sad, Serbia*

Achievements/Tasks
- I work part-time as a .NET software developer. I worked on internal projects and with clients, communicated with them and wrote estimations. I also worked in React.

ORGANIZATIONS

BEST (Board of European Students of Technology) Novi Sad (09/2020 - 01/2022)
I was volunteering as Logistics Coordinator at two projects, AIBG 2021 and Local academic seminar "A Dive Into the Unreal". I was also member of FR (Fund Raising) team for AIBG 2021. I was also member of Topic team for AIBG 2022 for a month, where we created game using Unreal Engine.
